Geriatric Care Managers

Geriatric Care Managers are professionals trained to assist older and disabled adults and their

families in making positive, informed decisions for independent, satisfying lives.

Geriatric Care Managers seek to ensure supportive relationships with each client so they develop confidence in their own ability to live independently.

Aging Assistance Geriatric Care Managers assist aging adults and families with such services as:

- Comprehensive Assessment
- Referrals to Community Services
- 24 Hour - 7 Day Crisis Response
- In-Home Care & Meal Preparation
- Monitoring
- Coordination of Medical Care
- Transportation & Shopping
- Companionship & Socialization
- Communication to families

Aging Assistance Care Managers will develop a plan of care, specific to the needs of your elder, so you can rest assured that your loved one is being well cared for.

Aging Assistance will advocate for our clients in all situations to help maintain independence and dignity in the aging process.

Care Management Services

Aging Assistance provides comprehensive assessment and evaluation services. Based on our assessment results, our Care Managers are able to develop a comprehensive plan to assist older adults and their families with short or long term care arrangements.

Assessment & Development of a Care Plan to include physical, emotional, mental, social, spiritual, financial, medical, and legal concerns of the client and/or family.

Referral to legal, financial, and/or medical professionals, and community services.

Assistance in Place of Residence for meals, companions, transportation, chores, etc.

Coordination of Alternative Living Arrangements in a retirement community, long-term care facility, or long-distance moves.

Coordination of Community Referrals & Monitoring to assure quality of services to the client, including assistance with medical appointments and communication with physicians and other medical services.

Crisis Response on a 24-hour, seven-day basis.

Money Management including assistance with bill paying, insurance filing, Social Security, Medicare, Medicaid, Veteran's benefits, record keeping for client and family to insure continuity of care.

Communication to facilitate planning.

Consultation & Planning for Advance Directives: Living Will, Health Care Surrogate, Power of Attorney, Guardianship, Burial Planning.

The Right Time?

When you or your family member is in a crisis situation, or seeking answers to the myriad of health insurance or long-term care questions, **Aging Assistance** Care Managers are available to advise you and design the best solution for your family's situation.

We respect your need for timely information and our staff is well trained to accurately and thoroughly answer your questions and customize a plan of care management for your family.

The Right Source!

Aging Assistance Care Managers have extensive backgrounds in elder-care issues. Our staff includes Care Managers with knowledge of the medical, legal, and financial concerns of older adults.

Active membership in national and statewide organizations offers further assurance of our qualifications and dependability as you consider entrusting us with the care of your loved one:

- National Association of Professional Geriatric Care Managers
- Florida Geriatric Care Manager Association
- National Guardian Association
- Florida State Guardianship Association
